**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 18 June 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior office action.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 10-15 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Sugano (US Patent No. 6,485,287).

Sugano discloses a screw for use in an extruder comprising:

- A cylinder (See Figure 1);
- Wherein a height of a flight portion of that part of the screw (11) located below the hopper (5)port is lower than a height of a flight portion located at a downstream side, and said height at said part varies continuously in a peripheral direction over a predetermined rotational angle of the screw (See Figure 1 at 8).
- Wherein a portion where the height of the flight portion is lower than the height of the flight portion on the downstream side has an angle of 180 or less (See Figure 1).
- Wherein the number of threads on an upstream side of the screw is made smaller than a number of threads on the downstream side (See Figures 1 and 6).
- Wherein an interval of the threads on an upstream side is made wider than an interval of the threads on the downstream side (See Figures 1 and 6).

- Wherein the diameters of the threads on an upstream side of the screw are made larger than the diameters of the threads on a downstream side (See Figures 1 and 6).
- Wherein the height of the flight portion located below the hopper port is between 2% and 6% smaller than the diameter of the screw (See Figures 1 and 6).
- Wherein the cylinder has a consistent inner diameter from the hopper port to a last thread of the screw at the downstream end (See Figures 1 and 6).

***Response to Arguments***

4. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. PTO-892 contains patents that disclose a screw wherein a height of the flight portion of the screw located below the hopper is lower than the height located at the downstream side.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
